CoolHunter App is a tool assisting professional "Cool Hunters" to speedily organize and record high street data regarding fashion and trends, making data both easy to capture and simple to access. CoolHunter App consists of a mobile tool together with a private Web area. The mobile tool is an application designed for rapid data gathering. In every "data capture", the user can:

take up photos

record audio of up to three minutes' length (for iPhone)

organize and personalize data via categorization

document data by text fields, including: a photos folder, location, brand, text description up to 200 characters

automatically geo-position data capture (for iPhone)

send data captures to your private Web area in www.coolhunterapp.com

Available for:

iPhone

Vodafone Business Place:
BlackBerry, Symbian,
Samsung, SonyEricsson, etc.
